EMPLOYMENT

Coder | *Arfa Software Technology Park, Lahore, Punjab* Jun 2024 – Sep 2024

- Gained hands-on training in frontend and backend development, building a technical foundation in HTML and CSS for responsive design alongside C, C++, and C# backed by core Object-Oriented Programming (OOP) principles.
- Designed and developed a shopping website project end-to-end, applying coding and UI/UX design skills to deliver a functional e-commerce solution in a real-world scenario.
- Built user-friendly interfaces and structured, maintainable application logic, following clean coding practices throughout development.

PROJECTS

Saphire Website Blueprint | *Personal / Practical Project* 2024

- Designed and developed a responsive website blueprint for Saphire using HTML, CSS, and Bootstrap.
- Built a clean, mobile-friendly layout focused on usability and visual design.
- Applied frontend development fundamentals including semantic HTML structure and CSS styling.

Banking Management System | *Personal Project* 2024

- Developed a console-based banking application in C++, applying core OOP concepts such as classes, encapsulation, and inheritance.
- Implemented core banking operations including account creation, deposits, withdrawals, and balance management.
- Rebuilt core logic in C# to strengthen understanding of OOP principles across multiple languages.

Maze Game (C++) & 2D Shooting Game (C#) | *Personal Project* 2024

- Built a console-based maze navigation game in C++, implementing game logic, movement mechanics, and win/lose conditions using OOP principles.
- Developed a 2D shooting game in C#, including collision detection, score tracking, and basic game object management.
- Practiced core game development concepts such as state management, event handling, and user interaction design across two languages.

EDUCATION

Bachelors in Computer Science | *University of Engineering and Technology, Lahore* 2025 – Present

Intermediate in Computer Science | *Kips College, Lahore* 2023 – 2025

Matriculation in Science | *Allied Schools, Multan* 2021 – 2023

COURSES

Web Development | 2024

- Skilled in creating user-friendly interfaces, efficient backend logic, and structured applications with clean coding practices.
